

ELEPHANT POINT FACTSHEET

GENERAL LODGE INFORMATION

Elephant Point is situated in a region renowned for its natural diversity and concentration of big game, and is undoubtedly one of the best game viewing areas in the Kruger National Park. The estate takes its name from the elephants that can frequently be seen drinking and grazing on the banks of the mighty Sabie River.

However, elephant is not the only magnificent creature you will encounter. Herds of buffalo, prides of lion, leopards and numerous antelope species make their home in the surrounding area. Elephant Point borders the Kruger National Park and is also neighbour to the world famous and exclusive Sabi Sand Game Reserve, home of Mala Mala, Sabi Sabi, Londolozi, Singita, Ulusaba and others.

The estate is a 5 hour drive from Johannesburg or a short 45-minute flight if you can't wait for your break to begin
